

## Vopak acquires storage terminal in South Wilmington, NC - USA

Rotterdam - the Netherlands / United States, 3 October 2008

Vopak announces that Vopak Terminal Wilmington, Inc. has purchased ExxonMobil's terminal in South Wilmington, North Carolina. The terminal, which has been operated by Vopak since 1991, is located on the east bank of the Cape Fear River and serves as a storage facility for oil and chemical products. Through this acquisition Vopak is able to expand its storage capacity in the port of Wilmington, which is an important location on the east coast of the USA for the distribution of fuels. The terminal, which will be named Vopak Terminal Wilmington South, is Vopak's second terminal in this port. It currently operates approximately 50,000 cubic meters (313,000 barrels) of storage capacity, which can be increased considerably in the future.

### **Profile Vopak**

Royal Vopak is the world's largest independent tank terminal operator specialising in the storage and handling of liquid and gaseous chemical and oil products. On request, Vopak can provide complementary logistics services for customers at its terminals. Vopak operates 79 terminals with a storage capacity of more than 26 million cbm in 31 countries. The terminals are strategically located for users and the major shipping routes. The majority of its customers are companies operating in the chemical and oil industries, for which Vopak stores a large variety of products destined for a wide range of industries.
